

## We are looking for dealers!

Join our partner program and expand your business

IEE develops people and object sensing solutions that enhance building security, building safety and building management.

If you have an established business network in the public or commercial infrastructure market (airports, banks, financial institutions, retail, etc.) you could expand your portfolio and increase sales opportunities by working with us.

Value added reseller, system integrator or consultant? We are looking for a sales partner with solid technical skills who provides us with market intelligence and is able to offer customer support and after sales services. We offer an attractive remuneration model and provide technical support and marketing collateral.

### Interested?

Please talk to our Global Sales Manager Kai Pabélick on +352 2454 2058 or send an e-mail to [partners@iee.lu](mailto:partners@iee.lu).

### People Counter

People counting and flow detection for emergency evacuation and marketing intelligence; occupancy monitoring for evacuation management, climate and ventilation control and energy consumption optimization; queue management for staff optimization.

### Single Person Detector

Singling-out solution for transfer gates and man-traps or for entrance and access control (per doorway); prevention of piggybacking or tailgating; recognition of head-by-head or bi-directional situations and luggage left behind.

### Volumetric Object Surveillor

Surveillance of valuable objects in museums, art galleries and banks by monitoring the volume around the object to trigger alarm in case of intrusion.

### Object Classifier

Identification, counting and categorizing of objects and luggage for object classification and child detection at automated luggage check-ins in airports; conveyor belt monitoring.

### About us

IEE is an international provider of innovative sensing systems. Founded in 1989 and headquartered in Luxembourg, IEE operates worldwide with technical centers in Luxembourg, Germany, Slovakia, the United States, China and South Korea, as well as a representative office in Japan. We have a worldwide distribution and sales partner network and operate manufacturing sites in Luxembourg, Slovakia and China. IEE employs 1,400 people worldwide. One fifth of our workforce is dedicated to research and development. For more information, please visit [www.iee.lu](http://www.iee.lu).
